

PATENT #: 6,076,780 Model #: PS-16HDss / PS-22HDss

## Heavy Duty Pipe Stand - Single Sided Models

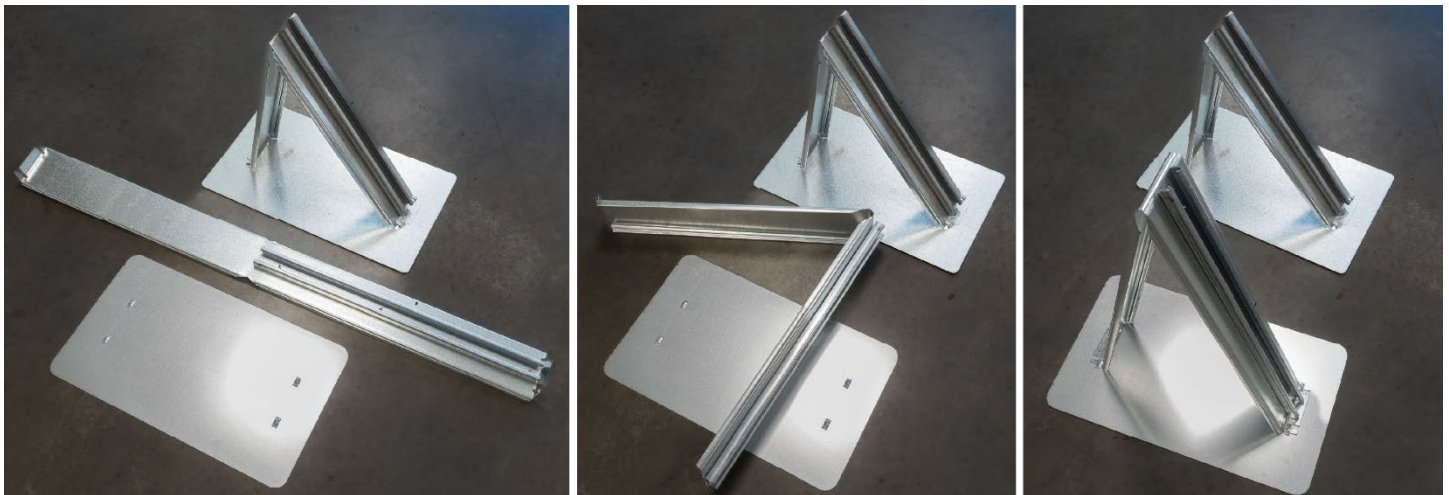

These roof pipe stands secure any outdoor rated pipe via the attachment rail on one side of the stand. Requires a strut pipe clamp (sold separately) to attach a series of pipes as small as 1/2" to over 12" in diameter.

All parts are manufactured with weatherproof G90 steel.

Holds up to 500lbs of pipe in single stand configuration. Holds 800lbs using dual stands with a crossbar.

Space apart 4ft to 12ft depending on material span specs.

### Assembly:

Ships Flat for quick assembly at worksite. #1: Bend the Upper Support Arm into a Triangle shape; #2: Insert the four corner tabs into the brackets; #3: Bend the corner tabs upward with **Pliers** or **Flathead Screwdriver**.
